Introducing LinkedIn - NASWA National Jobseeker’s Curriculum

LinkedIn for Jobseekers Workshop Overview

Background

This jobseeker’s curriculum was developed by LinkedIn’s Economic Graph team in partnership with the NASWA (National Association of State Workforce Agencies) to teach network-based job search using LinkedIn to unemployed active jobseekers. In addition to this Trainer Guide and the accompanied presentation, the curriculum also includes a checklist to be used as a follow-along during the workshop as well as a self-serviced handout.

Summary

This workshop aims to show jobseekers how to use LinkedIn to connect to job opportunities. By the end of the workshop, the jobseeker will have a profile that is optimized for job search, a LinkedIn network that can open doors, and have applied to at least one job on LinkedIn.

LinkedIn’s Goal for This Curriculum

• Connect out-of-work jobseekers to employment opportunity: LinkedIn’s vision is to create economic opportunity for workers. We have the world’s largest professional network and millions of jobs. Teaching jobseekers how to use LinkedIn to find work is a direct application of our vision.

• To save the state employment agencies and job centers from having to spend resources to develop and update their own training material. Assuming it takes 2 hours per quarter for staff to create and maintain the content, the national workforce system can potentially save 20,000+ staff hours a year. The time saved can be re-invested in delivering services to job seekers.

How to Use This Guide

This Trainer Guide will be your reference as you prepare and deliver the LinkedIn for Jobseekers Workshop, and is designed to provide all the information you need to lead with confidence. To set you up for success, this document includes the following:

Workshop Overview: This introduction to the workshop’s content and target audience also includes key details about required preparation and classroom setup.

Outline: As a summary of the main topics, this is a resource to stay on track when delivering the workshop. Time estimates are provided as a guide, although the actual amount of time required will vary depending on the knowledge level and learning style of the participants.

Presentation Guide: The main section of this document is a companion to this session’s PowerPoint slideshow, and offers suggested prompts and demonstrations to help you give a thorough, accurate, and engaging workshop.
Target Audience
The target audience for this workshop is out-of-work jobseekers, and the material is intended to be accessible at the introductory level, including jobseekers who are not yet LinkedIn members. Current LinkedIn members will also benefit from attending this workshop as it includes new features designed specifically for jobseekers as well as tips on how to optimize their profile for job search.

Prerequisites to Attend the Workshop
The only prerequisite is that the participant must have an email account. Please let your jobseekers know that they need to have an email account before coming to the workshop. In addition, if they have a mobile phone, bring it to class so they can download and install the LinkedIn and LinkedIn Job Search mobile apps.

Also, please let them know there is no cost to using LinkedIn as a basic member. It is free to create a profile, make connections, and search and apply for jobs on LinkedIn.

Learning Goals
During the workshop, jobseekers will learn how to:

1. Create a LinkedIn account
2. Build a LinkedIn profile that attracts employers
3. Build a professional network on LinkedIn to connect to job opportunities
4. Search and apply for a job on LinkedIn
5. Access additional job search and career advancement resources on LinkedIn
